

Thanks to Barbara and ASTEF from Epsilon Omega

What an exciting convention we had! How exciting it was to hear of the scholarships that were awarded and of course the project grants! Elizabeth McCormick was absolutely awesome and so inspiring. I was able to get a selfie with her...she taught me the best way to take one with ease! So, she taught me how to fly a helicopter and also how to take a successful selfie!

I was hoping to get to speak to you that week, but you were so busy (and so was I) that the opportunity didn't present itself.

I was so very overcome with emotion with the ASTEF Project Grant that Epsilon Omega received! Talk about "sitting on the edge of your seat!" I literally was as I was listening to the announcements of the recipients! This was the first time that our chapter applied for a grant...AND WE RECEIVED ONE!!!

Thank you for your guidance that you provided me when I emailed you and I also thank Cindy Neander (a very good friend of mine from Kappa Theta...she actually invited me into DKG with Trudy Matus...a very dear long-time friend of mine). And of course, Cheryl Crawford is another very close long-time friend and mentor. I absolutely love the support that we as "sisters" can offer each other!

Enjoy the rest of your summer!

Chery Rayome
